Dear Board of Directors for Encinitas Ranch HOA,

Thank you for the opportunity to present a Tree Care Management Proposal for **Encinitas Ranch HOA 3 year**. A three-year, proactive plan addresses today's immediate tree care needs while carefully considering future work to minimize longer term, costly risks, enhance the property's value and aesthetics, and allow you to plan and spread your budget over a prolonged period of time. Following is a summary of the primary objectives we discussed:

- **Improve property aesthetics while reducing tree related risk** - Properly managed healthy trees enhance visual appeal and property value. Using our knowledge and experience, we are making recommendations to help you manage your trees. These services may include pruning, plant health care, tree takedowns, stump grinding, and tree replacement solutions.
- **Provide clearance from structures, driveways and streets** - Tree limbs contacting buildings and siding, or low limbs in parking areas can potentially cause damage to structures or vehicles.

We know that you have a choice when it comes to selecting a tree care contractor. As you consider your options, please remember what makes BrightView distinct.
